Impulse Heat Sealer

This range of impulse heat sealers are 'CE' approved and have adjustable timer controls to suit a variety of films from 2 x 25mu (2 x 100 gauge) to 2 x 200 micron (2 x 800 gauge).

Stock Ref	Description
17001	200mm impulse sealer with cutter
17002	300mm impulse sealer with cutter
17003	400mm impulse sealer with cutter

Desk Top Shrink System

Our desk top shrink kits come complete with unrolling device, separator bar, hot air blower, nozzle and stand. Our systems are for use with centre fold shrink film up to 400mm or 800mm in width and will seal up to 120 units per hour.

Stock Ref	Description
17010	400mm shrink machine with unrolling device and hot air blower
17011	800mm shrink machine with unrolling device and hot air blower

Pallet Shrink Gun

This pallet gun comes with a hose, regulator, tools and carry case. The power is controllable but can heat a very large area in a short space of time. This model also has the added benefit that the nozzle remains cool so there are no risks of burns and has a double safety regulator which protects against overheating.

Stock Ref	Description
17020	Pallet shrink gun with hose, regulator, tools & carry case.

Glue Guns

Our range of lightweight hot melt glue guns offer unrivalled reliability and ease of use. They are ideal for sealing boxes or general use and provide exceptional adhesive melt rate.

Stock Ref	Description
17030	12mm blister pack complete with 4 adhesive slugs
17031	12mm light duty
17032	12mm medium duty
17033	12mm low temperature medium duty
17034	12mm heavy duty
