AirCap Bubble Wrap

AirCap bubble wrap has a special air retention barrier to seal every bubble against air loss. This high quality bubble wrap retains its thickness to ensure effective long-term cushioning performance from packaging right through to final delivery.

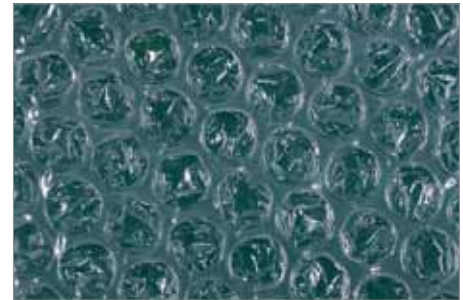

Rolls can be specified slit to smaller widths or perforated on a roll to provide easy tear bubble sheets. Anti-static bubble rolls are also available to protect electrical components from the effects of static electricity.

Available in three bubble sizes and a variety of roll heights as standard.
