

Stretch Film

Hand Stretch Film

This polythene film is an economical and effective way of stabilising and securing palletised goods. It is water resistant and protects against dust and dirt. The stretch wrap can be applied using a dispenser or by hand using rolls with extended cores at no extra cost.

Hand Stretch Film - Blown

Blown film is a good all round general purpose stretch film and is 'tacky' on one side. This film is ideal for use in cold warehouses.

Stock Ref	Thickness (mic)	Size	Qty Per Carton
02001	14	400mm x 300m	6
02002	17	400mm x 300m	6
02003	20	400mm x 300m	6
02005	34	400mm x 200m	6
02006	17	500mm x 300m	6

Hand Stretch Film - Cast

Cast film is high quality and is quieter than blown film when coming off the roll. This film also has a greater clarity making it ideal for accurate barcode scanning.

Stock Ref	Thickness (mic)	Size	Qty Per Carton
02030	17	400mm x 300m	6
02031	20	400mm x 300m	6
02033	34	400mm x 200m	6
02034	17	500mm x 300m	6

Security Stretch Film - Blown

A black stretch film that disguises your palletised goods to prevent theft while providing excellent load stability.

Stock Ref	Thickness (mic)	Size	Qty Per Carton
02011	25	500mm x 250m	6

Hand Stretch Film Dispensers

Our lightweight and robust stretch film dispensers are the effective way to apply stretch film to palletised goods. With a tension control these steel dispensers are suitable for use with 400mm to 500mm width rolls

Stock Ref	Description
17080	Medium Duty Stretch Wrap Dispenser
17081	Heavy Duty Stretch Wrap Dispenser

Hand Stretch Film - Handywrap

This simple and flexible narrow width film is ideal for bundling and wrapping small products.

Stock Ref	Thickness (mic)	Size	Qty Per Carton
02015	15	100mm x 150m	36
02016	17	100mm x 150m	36

Machine Stretch Film - Cast

This film is for use on all stretch wrapping machines and provides a high level of stretch and economical yield depending on what type of machine is being used. The quality of the cast film provides a smooth surface, enabling the film to cling to itself without adhesive additives.

Stock Ref	Thickness (micron)	Size
02007	17	500mm x 2000m
02008	20	500mm x 1700m
02009	23	500mm x 1500m
02010	35	500mm x 1000m

Machine Stretch Film - Power Pre-Stretch

A high performance stretch film that will produce a much greater yield than standard machine film. Our power pre-stretch film is PIFA approved and when used with the correct machine will stretch up to 300%.

Stock Ref	Thickness (micron)	Size
02040	17	500mm x 2100m
02041	20	500mm x 1800m
02042	23	500mm x 1500m

Stretch Wrap Machines

Fully automatic stretch wrapping machines are easy to install, operate and maintain. The machines efficiency will reduce your film and labour costs substantially which in turn will contribute to the cost of the machine. Please contact us for your free onsite demonstration.

Stock Ref	Description	Turntable Diameter (mm)
18010	Core Brake Film Stretch	1650
18011	Power Pre-stretch	1650
18012	Core Brake Film Stretch	1670
18013	Power Pre-stretch	1670
